

C End Module Test (Set – B)

1. Write a program to count number of words in a string.
2. Write a program to print following series:
 $1 + 11 + 111 + 1111 + \dots + n \text{ times } 1$
3. Develop a program to manage a music library. Define a structure to store song details (song ID, title, artist, and duration). Create a menu-driven program to add new songs and display the song library. Use functions to handle these operations.
